

Name:

Intended graduation cluster:

Student number:

Name representative graduation cluster:

Instructions for students

Please fill in the form digitally. In the case you want to change your program and you require permission from the Examination Committee in advance (e.g. when following courses at another university), note the changes on page four. When you want to change the program for other reasons, please hand in a revised form at the start of your preparation phase with form 2. For more information on the IST program check [the TU/e online education guide](#).

1. On page 1 you find the mandatory courses for the IST program.
2. On page 2 please select your IST electives (minimum of three).
3. Additionally, page 3 you need to fill in your free electives (35 credits). From this 20 credits need to be taken from courses in the department Mathematics & Computer Science. Do you wish to include courses from another university? Please provide links to the course descriptions of these courses (e.g. a link to a course catalogue).
4. On page 3 you can fill in your homologation courses if applicable and fill in the seminar you wish to include in preparation for your graduation.
5. If you need to make changes to a previously approved program please indicate the changes you have made in the text box on page 4 as well.

Instructions for cluster coordinators can be found on the final page of the form.

IST Mandatory courses

Course code	Course title	Credits
2MMC10	Cryptology	5
2IMS25	Principles of Data Protection	5
2DMI20	Software Security	5
2IMS20	Cyberattacks Crime and Defenses	5
2IMS30	Advanced Network Security	5
2IMS00	Seminar Information Security Technology (IST)	5
2IMC05 or 2MMR05	Preparation graduation project	10
2ICM00 or 2MMR30	Final Project	30
Subtotal Credits		70

IST electives

Course code	Course title	Credits
2IMS10	Physical aspects of digital security	
2IMS50	Introduction to quantum computing and security	
2DMI10	Applied Cryptography	
2IMS15	Verification of security protocols	
2DMI00	Cryptographic protocols	
2IMS40	Intrusion Detection Laboratory	
2IMS60	Provable Security	
Subtotal Credits		

Free elective courses (20 credits must be done in the department Mathematics & Computer Science, 15 credits may be chosen from other programs, departments, or universities as well an internship of 15 credits may be included here *)

Course code	Course title	Credits
Subtotal Credits		

*An internship is optional. Keep in mind, when you do an external internship (e.g. at a company), your graduation project needs to be executed internally (within TU/e), when you do an internal internship you cannot graduate with the same supervisor.

Internship Supervisor (if known):

Course code	Course title	Credits

Total number of credits (at least 120 credits)		
---	--	--

Changes to the previously approved program, links to course descriptions of courses followed at another university (including a motivation for your selection and an explanation of why these courses do not overlap with each other or with other courses in your program), and/or motivation for self- chosen homologation courses (if applicable):

This section is to be completed by the Examination Committee

Approval Examination Committee:

Date:

Instructions for Cluster Coordinators

The cluster coordinator (or the mentor, if early approval is required for another reason) is asked for a recommendation to the Examination Committee. The recommendation should be withheld if there is reason to believe that the answer to a question is “no”:

- Are there 30 credits in core and core elective?
- Are there two major trajectories (two courses/10 credits per major trajectory) and one or two minor trajectories (two courses/10 credits in total from trajectories that are not your major trajectories)?
- Is there a total amount of at least 120 credits?
- Is there a significant overlap between 2 or more courses in the proposed program?
- If applicable: Are the bachelor courses (maximum of 15 credits) necessary pre-knowledge for the listed master level courses (e.g. as homologation courses)?
- If you are the cluster coordinator: Is the proposed plan sufficient for graduating in your cluster?
